I work at the Esat and I am 55 years old

Am I disabled or retired?

IN FRANCE, YOU CAN'T BE RETIRED AND DISABLED!

Today, **25%** of us are over 50 years old

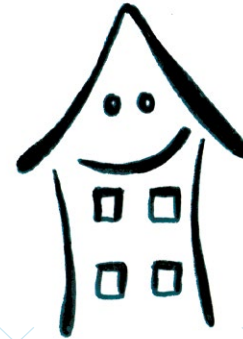

In France, we can retire from the age of **55**

**Un Avenir après le travail** helps people with disabilities to prepare their retirement by :

- accessible information medias
- training on life projects for future retirees
- meetings with all the services offered to retirees (for administrative procedures, for housing, for interests, activities and social relationships, Prevention and access to healthcare)

We do not know how to welcome people with disabilities

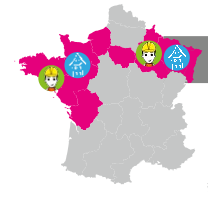

Who can help us?

ADMINISTRATIONS AND ASSOCIATIONS  
(HEALTH, RETIREMENT, HOUSING, SOCIAL LIFE)

**Un Avenir après le travail** is training our partners:

- to be aware of disability
- to meet future retirees and discover their activities and hobbies
- to have a retirement facilitator correspondent in each territory
- to imagine together how to make things accessible

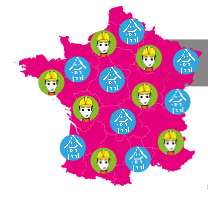

TODAY...

**250** correspondents trained as retirement facilitators

**+ than 50** professional partner structures (federation of pensioners, social housing, pension funds, etc.)

**+ than 2 000** pensioners accompanied

DEMAIN

- Anticipating and taking account the needs of pensioners with all the services offered to retirees
- Pooling of actions and resources thanks to a national association
